LEAP enables students to set up their own company for a school year. They practice decision making and problem solving. They develop interpersonal skills and work as part of a team. The programme helps the students gain skills and confidence, so they are better prepared for employment and university interviews.

LEAP is a registered Charity [1118612] run by volunteers from schools and local businesses.

LEAP would like to thank the local businesses for their support this year, and for the voluntary time and effort put in by all the teachers and business mentors.
